

GARMIN BLAZE EQUINE HORSE WELLNESS SYSTEM

This easy-to-use tail wrap and sensor gives you insights into your horse's health and fitness, so you can make more informed decisions about their well-being and training

DESIGNED FOR HORSES

The Blaze equine wellness system includes a durable and washable neoprene wrap with hook-and-loop straps and a removable, lightweight and power-efficient sensor.

SEE REAL-TIME STATS

Pair with the [Blaze™ mobile app](#) on your smartphone, or use the Blaze app from the [Connect IQ™ Store](#) on your compatible Garmin smartwatch to view heart rate, strides, gait, distance and more¹ (requires a connection with BLUETOOTH® technology).

WRAP AND USE

The easy-to-attach tail wrap holds the sensor to the underside of your horse's tail to gather health and fitness metrics without special skin preparation.

ADVANCED SENSOR

The equine optical heart rate monitor provides data under motion and environmental conditions.

POST-ACTIVITY INSIGHTS

Review post-activity details on the Blaze mobile app, including recovery rate, time in heart rate zones, skin temperature, activity highlights and more.

DATA AT YOUR WRIST

Use the Blaze app on your compatible Garmin smartwatch to track specific activities, including training, recovery and transport (requires a connection with BLUETOOTH technology).

TRAINING FEATURES

TRACK MULTIPLE HORSES

Use the wrap and sensor on multiple horses, and create individual profiles in the Blaze app

SKIN TEMPERATURE CHANGES

After a few minutes of use, you can see how your horse's average skin temperature changes, which can be related to activity, environment, potential illness and more

HEAT SCORE

Heat score is the combined total of the current air temperature and humidity. Based on that total, the heat score will guide you on the safety of riding at that time.

VIEW YOUR ACTIVITIES

See a GPS location summary after your training or transport activities when paired with your Garmin smartwatch or smartphone.

BATTERY LIFE

Get long battery life of up to 25 hours between charges. Easily remove the sensor from the wrap for cleaning and charging.
